

Installing the Cat5 Secure Browser on iPads

1. Open the *Apple App Store* and go to the *Search* section and type in “**Cat5 Edition**”. Once you find the “**Cat5 Edition**” Secure Browser app, select the *download* button.

2. Now that you have the *Cat5 Secure Browser* app downloaded onto your iPad, tap the **Cat5** icon on your Home screen, or “*open*” from the App store.

3. Once the Cat5 Secure Browser is opened, you will arrive at the introduction screen. Tap on **“Navigate to assessment login page / Allez à la page d’ouverture de session de l’évaluation”**.

Navigate to assessment login page / Allez à la page d'ouverture de session de l'évaluation

4. Next, you will be asked to confirm **“Single App Mode”**. In this mode, you’re unable to use other apps on this device. You will only be able to access other apps once the Cat5 Secure Browser app is closed. Tap **“yes”**.

If your screen is black or frozen

Follow the steps for your device.

On your iPad without a Home button

1. Press and quickly release the volume button closest to the top button.
2. Press and quickly release the volume button farthest from the top button.
3. Press and hold the top button until the device begins to restart.
4. If your iPad doesn't turn on, [follow these steps to check your hardware and charge your device](#). You might need to charge for up to an hour.
5. If your iPad still doesn't turn on, [contact Apple Support](#).

On your iPad with a Home button

1. Press and hold both the Home button and the top button until you see the Apple logo.

2. If your iPad doesn't turn on, [follow these steps to check your hardware and charge your device](#). You might need to charge for up to an hour.
3. If your iPad still doesn't turn on, [contact Apple Support](#).
